

AMENDMENTS TO THE SPECIFICATION:

On page 2 of the specification, please replace the first paragraph under the heading “Summary of the Invention” beginning at line 19 with the following rewritten paragraph:

According to the present invention, there is provided a control system for a craft having two wing control surfaces spaced apart along a main body section of the craft, the system comprising automated synchronized operation of the two wing control surfaces for continuous variable displacement for manoeuvre of the main body relative to the flight path velocity vector with body directional control.

On page 4 of the specification, please replace the third full paragraph beginning at line 17 with the following rewritten paragraph:

According to the present invention, there is also provided a method of controlling a craft having two wing control surfaces spaced apart along a main body section of the craft, the method comprising automated synchronized operation of the two wing control surfaces for continuous variable displacement for manoeuvre of the main body relative to the flight path velocity with body directional control.
